Lecture Notes 08/31

Recap for a great oatmeal cookie recipe (v1)
- Created an initial HTML implementation for a webpage for the following cookie recipe
- https://repl.it/@rlysecky/OatmealCookieRecipev1

Oatmeal Cookie Recipe (v2)
- Add <div>, <span>, and other HTML tags to organize web page for styling
  - <div> is block container
  - <span> is an inline container
- Add a table summarizing the recipe

Goal: Add <div>, <span>, and other HTML tags to organize web page for styling
- The following wire frame shows the basic desired layout for the web page when viewed on a desktop browser (or tablet)
- Before we can write CSS to style the webpage, we need to add structure to web page to support the desired styling
